

Virginia's Plan to Increase Independent Living Options -
Action Plan Update

Date: January 27, 2020

Executive Summary

On March 3, 2013 the Commonwealth of Virginia developed Virginia's Plan to Increase Independent Living Options (hereinafter referred to as the "Plan") to increase the availability of independent living options for individuals with developmental disabilities. The Plan met the requirements of Section III.D.3 of the Settlement Agreement with the United States Department of Justice.

The Plan was developed by the Virginia Department of Behavioral Health and Developmental Services (DBHDS) in consultation with an Interagency Housing Committee composed of representatives from the Office of the Secretary of Health and Human Resources (OHHR), the Virginia Housing Development Authority (VHDA), the Virginia Department of Housing and Community Development (DHCD), the Virginia Department of Medical Assistance Services (DMAS), the Virginia Department for Aging and Rehabilitative Services (DARS), and the Virginia Board for People with Disabilities (VBPD), as well as stakeholder organizations.

The target population under this plan is adults with developmental disabilities who meet any of the following additional criteria: (1) currently reside at any of the Commonwealth's training centers, (2) receive Developmental Disability (DD) waiver services or are eligible to receive a Developmental Disability waiver and are on the DD waiver waitlist, or (3) currently reside in a nursing home or private Intermediate Care Facility and meet the level of functioning criteria to be eligible for a Developmental Disability waiver.

For the purposes of the Plan, living options are considered independent if they have the following characteristics:

- The individual does not reside with a parent, grandparent, or legal guardian;
- The individual lives in housing types that anyone without a disability can live in, based on income;
- The individual has social, religious, educational and personal opportunities to fully participate in community life;
- Housing is affordable (i.e., the individual pays no more than 30-40% of his/her adjusted gross income);
- Housing is accessible (barrier free);
- Housing is leased/owned by the individual; and
- Housing is not contingent upon participation in services (and vice versa).

The updated baseline estimate for the number of individuals with developmental disabilities in the Commonwealth of Virginia who might choose independent living is 1,866.¹ This baseline estimate is

¹ The national average for the number of adults with I/DD living in their own home is approximately 10% of individuals with I/DD identified by state I/DD agencies. (Larson, S.A., Hallas-Muchow, L., Aiken, F., Hewitt, A., Pettingell, S., Anderson, L.L., Moseley, C., Sowers, M., Fay,

derived from analysis of current service utilization data, available informal survey data, anecdotal evidence of choice, and national data/trends.

The original plan included a significant amount of information about independent housing options and rationale for how goals were established. The Action Plan with its 5 goals and strategies was included as Appendix C of the original document. Since its publication in 2013, DBHDS has provided quarterly updates related to implementation progress. Going forward, this document shall serve as Virginia's Plan to Increase Independent Living Options, for people with a developmental disability who meet the target population criteria, as set forth in the above-referenced Settlement Agreement.

The action plan below includes a set of goals, strategies and action items with specific start and end dates, agencies assuming lead responsibility for each action item, outcome measures, and the interagency in-kind and other resources dedicated to complete or accomplish each task/action item. Each goal is intended to cover a multi-year period, while strategies and action items reflect the planned activities for fiscal and/or calendar year. The status of each action item and any actual outcomes will continue to be reported on a quarterly basis.

Minneapolis: University of Minnesota, Research and Training Center on Community Living, Institute on Community Integration). The RISP report also reports that there are 1.8 people with I/DD per home, so therefore Virginia estimates that there will be at a minimum 1.8 persons with I/DD residing in the 847 housing options created.

Virginia's Plan to Increase Independent Living Options, CY 2020 Goals, Strategies, and Action Items

Goal #1 - Increased Affordability of Independent Living

Goal #1: Provide rental assistance options to the target population

<i>52 options created in FY 15</i>	<i>115 options created in FY 19</i>
<i>165 options created in FY 16</i>	<i>185 options created in FY 20</i>
<i>170 options created in FY 17</i>	<i>49 options to be created by FY 21</i>
<i>131 options created in FY 18</i>	

Long-Term Outcome: Increase the target population's ability to afford independent community housing.

Indicators:

- **847 rental assistance slots available to the target population by 2021.**

Strategy 1.1: Increase access to VHDA administered housing choice vouchers (tenant-based rental assistance)

CY 2020 Targets:

- Add vouchers to the VHDA Housing Voucher pool that is dedicated to the target population, as federal funding permits.
- Increase referrals and utilization of VHDA vouchers in underserved localities.

Goal #4—Effective Access

Goal #4: *Build sustainable local capacity to provide coordinated, timely and informed access to the resources and services needed to support independent living in integrated settings*

Long-Term Outcome: *Increase the number of communities with a coordinated, streamlined system that enables the target population to efficiently and effectively access integrated housing and person-centered services.*

Indicators:

- *Increase in service providers (including all CSBs) that participate in a coordinated system for matching individuals with services in each of the 5 Developmental Services Regions*
- *Increase in housing providers (including all PHAs) that make units available using a coordinated system for individuals in the target population*

Strategy 4.1: *Develop coordinated regional outreach, planning and delivery infrastructure*

Support the operation of sustainable regional partnerships to identify local barriers to housing for the target population, and develop strategies to remove barriers and to increase access to local housing resources.

CY 2020 Targets:

- Build community capacity to implement Community Housing Guide service
- Regional Implementation Teams in five Developmental Services Regions assist with education and outreach efforts to improve access to integrated housing and supportive services

Terms and Acronyms

Terms

Affordable Housing - A general term applied to public- and private-sector efforts to help low- and moderate-income people purchase or lease housing. As defined by U. S. Department of Housing and Urban Development (HUD), affordable housing means any housing accommodation for which a tenant household pays 30% or less of its income.

Home and Community Based Services Waivers - waivers approved by the Centers for Medicare and Medicaid Services for providing long-term care services in home and community settings rather than institutional settings to eligible individuals with developmental disabilities.

Housing Choice Voucher Program (HCVP) - federal government's major program for assisting very low-income families, the elderly, and the disabled to afford decent, safe, and sanitary housing in the private market. Since housing assistance is provided on behalf of the family or individual, participants are able to find their own housing, including single-family homes, townhouses and apartments.

Interagency Housing Advisory Committee (IHAC) – Committee formed by DBHDS and composed of representatives from the Office of the Secretary of Health and Human Resources, the Virginia Housing Development Authority, the Virginia Department of Housing and Community Development, the Virginia Department of Medical Assistance Services, the Virginia Department for Aging and Rehabilitative Services, and the Virginia Board for People with Disabilities, as well as stakeholder organizations.

Local Entitlement Communities/Jurisdictions – cities, counties and/or a consortium of cities and counties that get a direct allocation of funding from the HUD every year to support economic development and community-related activities.

Low Income Housing Tax Credit (LIHTC) - A congressionally-created tax credit (Internal Revenue Code Section 42) available to investors in low-income housing designed to encourage investment that helps finance construction and rehabilitation of housing for low-income renters.

Money Follows the Person (MFP) - In 2008, Virginia launched the Money Follows the Person (MFP) initiative to provide extra supports and services to Virginians who choose to transition from long-term institutions into the community.

Notice of Funding Availability - federal announcement indicating the availability of funding for certain activities and the process by which eligible applicants can access said funds.

All goals listed above cover a multi-year time period. All strategies and action items cover a period of one year.

Public Housing Agencies (PHAs) – agencies designated by HUD to administer HUD’s rent subsidy programs. In most cases, these agencies are Public Housing Authorities, but other public and non-profit agencies may also be designated by HUD to serve as PHAs.

Qualified Allocation Plan - Plan developed by state housing finance agencies detailing how it will administer and fund projects under the Low Income Housing Tax Credit program.

Section 811 Program - HUD program that provides funding to develop and subsidize rental housing with the availability of supportive services for very low- and extremely low-income adults with disabilities

Supplemental Security Income - is a United States government program that provides stipends to low-income people who are either aged (65 or older), blind, or disabled.

Universal Design Standards - a set of design features that enhance the usability and marketability of such units.
