Will hit others if he is startled or is not feeling well. He will become extremely anxious when in crowded situations or when he is around unfamiliar people in close proximity, this will result in aggressive behavior. Any transition to the community will require an extensive transition period (months). Transition must include perspective staff spending a great deal of time getting to know this individual in his current residential setting. Staff must also be able to manage physical aggression and must become extremely familiar with this individuals method of communication, i.e. his facial expressions. |
