VIRTUAL

Power Up Parents *and Fam!*

Supporting Safe, Healthy Connections for Loved Ones with Disabilities

About the webinar

Knowledge is power. People with disabilities experience abuse at much higher rates than those without disabilities, but families can make a big difference. The LEAP© Project (Leadership for Empowerment and Abuse Prevention), at VCU's Partnership for People with Disabilities, will share simple, practical ways to help your loved one build safe, respectful relationships and recognize when something doesn't feel right. Learn how to boost their confidence, independence, and safety, while strengthening your connection along the way. Supporters of all ages and stages are welcome.

Same virtual presentation, two different dates. Choose one and join us!
