ADVOCATE REPORT AND TRAINING

• Quarterly Complaint Statistics

For the quarter ending 9/30/2022 in Region 1:

- 50 Complaints involving allegations of ANE (CSB)
- 523 Complaints involving allegations of ANE (Providers)
- 8 Complaints not involving ANE (CSB)
- 18 Complaints not involving ANE (Providers)

This is an increase of 135 total complaints from Q2 to Q3. Of Q3's 599 total complaints, 34 allegations involving ANE were substantiated. This is a percentage of 5.67% substantiated cases, which is a decrease of 1.44% between Q2 to Q3 for ANE substantiated cases.

• Summary of current Variances for R1

There are no current variances for community-based providers in Region 1.

LHRC Trainings

We have started conducting quarterly virtual LHRC trainings for our assigned LHRCs. The trainings are recorded so that LHRC members can access the trainings and take competency tests to ensure they reviewed and understood the materials. Your advocate team is happy to provide you with continued training dates during the upcoming year!

OLD BUSINESS:

Provider review update presented by Advocate Artea Ambrose following recommendations by the committee at the July, 2022, meeting:

Individual #2-video monitor due to high elopement episodes. Individual #2 has window alarms and video monitor. The video monitor is off when the staff is on the same floor as the individual. If the staff must go to the basement for laundry, they will turn on the video monitor. Individual #3- video monitor due to aspiration. A specific aspiration protocol has been developed to describe what the individual looks like when they are aspirating. The staff have a clear understanding.

Individual #4- video monitor due to seizure disorder. A specific seizure protocol has been developed to describe what the individual looks like when seizing. The staff has a clear understanding of the protocol.

Individual #5- video monitor due to seizure disorder. A specific seizure protocol has been developed to describe what the individual looks like when seizing. The staff has a clear understanding of the protocol

Individual #6- wedge in bed due to aspiration. The wedge flows seamlessly with the mattress. It is medically necessary and there is an aspiration protocol in place. The staff clearly understands the protocol.

NEW BUSINESS

- enCircle-Next Friend
- Blue Ridge Residential-6 Restrictions
- Virginia Institute of Autism-Human Research

CLOSED SESSION

Upon a motion made by John Shepherd and seconded by Jeffrey Jones, the committee entered closed session pursuant to Virginia Code §2.2-3711, a.15 and §2.2-37.05.5 for the purpose to discuss Next Friend appointment and Restrictions.

- Based on discussion of the need for a Next Friend, it was determined that enCircle's Next Friend be approved with no recommendations. The committee wanted to further note that, when the individual was asked about the Next Friend, the individual smiled, which the committee accepted as the individual's approval.
- Based on the discussion of the need for a Restriction, it was determined that the Blue Ridge Residential Restriction be approved with no recommendations.
- Based on the discussion of the need for a Restriction, it was determined that the Blue Ridge Residential Restriction be approved with the following recommendation:
 - The statement, "The audio monitor is needed in case the individual needs to ask for help," should be added to the review form.
- Based on the discussion of the need for a Restriction, it was determined that the Blue Ridge Residential Restriction be approved with the following recommendation:
 - The advocate should review the seizure protocol to determine if all need components are included.
- Based on the discussion of the need for a Restriction, it was determined that the Blue Ridge Residential Restriction be approved with the following recommendations:
 - The words "Project Life Saver", and that the GPS system reports directly to the police department, should be added to the review form.
- Based on the discussion of the need for a Restriction, it was determined that the Blue Ridge Residential Restriction be approved with no recommendations
- Based on the discussion of the need for a Restriction, it was determined that the Blue Ridge Residential Restriction be approved with no recommendations.
- Based on the discussion of the need for Human Research, it was determined that Virginia Institute of Autism be approved with the following recommendation:
 - Virginia Institute of Autism should develop a form that will allow the individual to withdraw consent to participate in the Human Research.

RETURN TO OPEN SESSION

Upon reconvening in open session, each member certified that, to the best of each member's knowledge, only private business matters, lawfully exempted from statutory open session requirements and identified in the motion by which the closed session was convened, were considered in the closed session, namely Restrictions.

Bruce Ellsworth motioned, and Jeffrey Jones seconded the motion to implement the recommendations made in closed session:
