AS AN INTERN AT VCBR EXPERIENCE IS EVERYTHING:

- Utilize your clinical skills & knowledge to facilitate diverse treatment groups and learn different group dynamics.
- Exposure to the forensic population and sex offender treatment concepts
- Learn to write precise informative clinical notes for core processing and psychoeducation group sessions.
- Acquire crisis intervention skills and conduct clinical assessment.
- Gain exposure and understanding of various clinical diagnosis and intervention theories in an inpatient setting.
- Obtain knowledge of the community reintegration process.
- Enhance your organizational skills while working as a part of a multidisciplinary team.
- Attend and Participate in resident Quarterly Progress meetings.
- Learn how to assess clients' needs to develop treatment plans.
- Interact with senior leadership.
- Collaborate and assist with the discharge process and provide case management services
- Meet with Licensed Field Supervisors for weekly supervision.
