DBHDS Licensing Process Overview

When applying for a Department of Behavioral Health and Developmental Services (DBHDS) license, it is important for all applicants to understand the DBHDS Licensing process and related issues. Due to the high volume of applications, the entire licensing process could take <u>up to twelve months or longer</u> to complete. This time period should be expected, unless the Department of Behavioral Health and Developmental Services (DBHDS) determines that the service and/or location of the service is addressing a priority need. However, in an effort to expedite the licensing process, we are revising the process - the initial application and attachments and the policies and procedures portions will be combined. Please be mindful that incomplete applications, applications that fail to adequately address all licensing regulations or provider delays in providing requested information can further extend the licensing process.

- 1. Until you are confident of being near the end of the licensing process, please delay:
 - buying a home for a service,
 - renting office space,
 - buying insurance, &
 - hiring staff.

However, you should be collecting and submitting resumes for prospective staff for critical positions, identifying potential property locations and getting insurance quotes because these items will be required during the application phase.

- 2. Review your business plan including how you expect to get referrals for your program. A License <u>does not guarantee</u> sufficient referrals to sustain a business. This is <u>especially</u> true where a large number of providers <u>may already exist</u> including Children Residential Group Homes.
- 3. Be sure to provide the requested information listed on the application. Please follow the "Policy and Procedure Review Checklist" when submitting your Policies and Procedures.

The DBHDS 5-Phase Licensing Process is as follows:

PHASE ONE:

- 1. New applicants will submit the following information as one packet for review:
 - A completed Licensing Application with the required attachments AND
 - The Licensing Policies and Procedures (P & Ps)

To expedite the licensing process, the focus of the P & P review will be on specific policies, but the applicant is required to complete and submit **ALL** policies and sign the P & P verification information confirming that all policies have been completed and submitted. The licensing specialist will determine the final approval of the Licensing Policies as part of the onsite inspection.

Please Note: All incomplete applications without the complete P&Ps will be returned to the provider and not processed.

PHASE TWO:

The applicant will <u>contact</u> the Virginia Department of Social Services' Office of Background Investigation (OBI) to complete the **Criminal Background Check** and **Central Registry Check** process.

PHASE THREE:

- 1. The Office of Licensing will assign a licensing specialist to the applicant.
- 2. The licensing specialist will complete the Onsite Inspection Process. During the inspection, the Licensing Specialist will review the physical facility or administrative office and conduct knowledge based interviews with the Service Director, CEO, licensed staff, etc. to determine if the staff has a working knowledge of the service. The licensing specialist will determine the final approval of the Licensing Policies and procedures as part of the onsite inspection. Once the onsite inspection is completed, the licensing specialist will make a licensing recommendation to the Office of Licensing management staff for review, who then, will forward the recommendation to the DBHDS Commissioner for the final approval.

PHASE FOUR:

1. While the applicant is waiting for the licensing recommendation's approval from the DBHDS Commissioner, the applicant may request a <u>Pending Letter</u> from the specialist. The licensing specialist will initiate the pending letter and will submit it to the applicant via email. The pending letter will serve as the <u>authorized license</u> until the finalized license is received. Medicaid is notified via the pending letter, so the new Provider may begin providing services.

PHASE FIVE:

1. The finalized license is mailed to the provider.

THE PROCESS FOR LICENSING CHILDREN'S RESIDENTIAL FACILITIES

THE APPLICATION PACKET

Enclosed you will find a complete application package. The application packet consists of the following:

- 1. The licensing application instructions, including the required attachments;
- 2. A proposed working budget form/ Balance sheet for private sector facilities;
- 3. Information on the "siting" of children's residential facilities, required by Virginia Code:
- 4. A staffing pattern schedule sheet;
- 5. A copy of the Standards for the Regulation of Children's Residential Facilities that includes the Interpretive Guidelines for these regulations; , and
- 6. Applicants can download a copy of the <u>Rules and Regulations to assure the Rights of Individuals Receiving Services from Providers Licensed, Funded or Operated by the</u> (The Human Rights Regulations).

Children's Residential Facilities (CRF) licensed by the DBHDS are required, by law and regulation, to provide "on-site" services to address the needs of residents with mental illness, intellectual disabilities, or substance use disorders. These needs may include counseling, therapy, training, habilitation or other services. For example, a children's residential service serving emotionally disturbed children must provide for counseling/therapy on site, as well as a daily structured program of care. This structured program of care should be reflected in your service description.

To begin the licensing process you must submit a written "application with attachments" addressing the following licensing regulations listed on page 8 of the application. The application will be reviewed for "subjectivity." Subjectivity is the process of reviewing what you submit to determine if licensing by DBHDS is required for your selected service.

- If the policy review specialist determines that the service to be provided by the applicant is NOT SUBJECT to licensing by DBHDS, the application will be returned to the applicant with a letter explaining that determination.
- If the application is complete, and determined to be subject to licensing by the DBHDS, but there are
 questions about the application, the policy review specialist will contact the applicant by email/mail.
 While the Office of Licensing is happy to answer applicant questions regarding how the
 applicable regulations are interpreted, the policy review specialist is unable to provide
 "consulting services" to assist applicants in writing their program descriptions, policies,
 procedures or to develop forms.

Please make certain you complete the following:

- 1. Address each element the application and regulations request;
- 2. Be as specific as possible (e.g. "qualified staff" does not tell us anything; explain how staff will be qualified. "residents will be assessed" does not provide enough information, how will they be assessed, by who, using what criteria?); Resumes must be submitted.
- 3. Make sure job descriptions are specific to your service. Do not simply re-state DBHDS or DMAS regulations;
- 4. **DO not** submit information not requested;
- 5. Do not submit the information in a binder or notebook, and
- 6. Include the correct mailing address, email, phone number, etc.

Please Note: These materials are not all that will be required of the applicant.

Once completed, the application and ALL required attachments must be returned, with the required **\$500.00** application fee, (Only business checks or money orders are accepted(payable to Treasurer of Virginia); personal checks are not accepted) to:

The Office of Licensing
Department of Behavioral Health and Developmental Services
P.O. Box 1797
Richmond, VA 23218-1797
If you have questions please call 804-786-1747

THE DBHDS LICENSING PROCESS:

- 1. Submit and receive preliminary approval of the initial application, [and required Attachments (must submit required Licensing policies, procedures and forms with \$500.00 fee);
- 2. Receive approval of required Licensing policies, procedures and forms:
- Set up an account with the Background Investigations Unit of the Department of Social Services, and request criminal history and central registry background investigations for identified staff as required by Virginia Code § 37.2-416 and § 63.2-1726. These must be completed prior to licensing, and
- 4. Complete an on-site review of the physical plant, to include interviews with the applicant related to the content of their service description and policies and procedures, as well as compliance with the applicable regulations.
- 5. Working with the Office of Human Rights, the applicant must:
 - Develop policies that are in compliance with The Rules and Regulations to Assure the Rights of Individuals Receiving Services from Providers Licensed, Funded or Operated by the Department of Department of Behavioral Health and Developmental Services, which can be found at <u>Human Rights Regulations</u>.
 - The provider will complete the "human rights compliance verification checklist" which can be found at <u>Human Rights Verification Checklist</u>. The provider must send in the compliance verification checklist and their complaint resolution policy to <u>OHRpolicy@DBHDS.virginia.gov</u>.
 - Within 5 working days of receipt of the "human rights verification checklist" the Office of Human Rights will notify the provider of the status of the provider's complaint resolution policy. If approved, the provider will be referred via email to your assigned advocate. If not approved, guidance for compliance will be provided.
 - The provider's assigned advocate will assign the provider to a Local Human Rights Committee (LHRC). The human rights advocate will schedule a visit to the program within 30 days of the <u>initial license</u> to review the provider's human rights policies for compliance and provide training on CHRIS reporting.

Starting a children's residential facility is the same as opening any small business. Many decisions about the service must be made by the applicant. While the Office of Licensing is happy to answer applicant questions regarding how applicable regulations are interpreted, it is unable to provide "consulting services" to assist applicants in understanding start up costs, what type of service to operate, whether there is a need for the service you are proposing in the area you wish to open, or in writing their service descriptions, policies, procedures or to develop forms.

TIMELINE FOR REVIEW AND APPROVAL

Opening a children's residential facility is a challenging process. Most applicants find that the process takes **up to 12 months or longer** before they receive a license. Submitting an application does not guarantee that a license will be issued. Careful planning and thoroughness in addressing regulations are critical to completing the process. All applications are reviewed in the order they are received. If the application is complete, but there are questions about the submission, OL will contact the applicant by email/mail.

TRAINING FOR NEW APPLICANTS

As part of the licensing process, new applicants are strongly encouraged to purchase a training DVD at the Licensing Central Office. The training session runs about two hours, There is a fee of seventy-five dollars (\$75.00) to cover the cost of time and materials. Payment is due in the form of a check or money order made payable to "Treasury of Virginia". You are strongly encouraged to view the DVD, with your program director, *prior* to submitting your application packet, including the application and policies and procedures. Please call 804-786-1747 to purchase.

POLICIES, PROCEDURES AND FORMS Licensing Policies and Procedures

Applicants should carefully read the applicable Licensing regulations to determine when a written policy or procedure is required. A written policy is required when a regulation calls for a "written policy," "written documentation," "procedure," or "plan." "Policy" defines *what* the plan, or guiding principle of the organization is, as related to the regulation; "procedures" are the process (or steps) the applicant takes to ensure that the policy is carried out. Procedures should answer the questions of *who, where* and *how* a policy will be implemented. **Polices and procedures are not re-statements of regulations**. Applicants may also need to develop other policies to guide the delivery of services even when not required by the regulations.

If further revisions are needed to submitted policies or forms, the applicant is notified in writing. Please Note: If the provider does not respond to the review letter within 12 months, the provider's application will be closed from further action.

Once all Licensing policies, procedures and forms submitted and approved, a licensing specialist is assigned to complete the on-site review. Please Note: If the provider does not contact the licensing specialist for an onsite review within 12 months then the application will be closed from further action.

CRIMINAL HISTORY AND CENTRAL REGISTRY BACKGROUND CHECKS

- Virginia Code §37.2-416 and §63.2-1726 require that all staff are subject to criminal history and central registry background checks to determine their eligibility to work with children in services licensed by the DBHDS. *After* the determination of subjectivity, the applicant should contact the Background Unit at the Department of Social Services (DSS) to obtain the procedures for completion of these background checks. Barbara Terrell 804-726-7092 and Doniece Black 804-726-7096 handles the criminal history background checks. These must be completed <u>prior to</u> being licensed.
- You will need to conduct central registry background checks directly through the Department of Social Services. Required forms can be obtained from the DSS website, www.dss.state.va.us, or contact either Barbara Terrell 804-726-7092 or Doniece Black 804-726-7096.

ON-SITE INSPECTION

When the policies, procedures, and forms have been reviewed and approved, an on-site review of the facility where services will be delivered will be scheduled. This on-site review verifies compliance with several regulations by allowing reviews of:

- 1. The physical plant,
- 2. Personnel records (which must be complete and include evidence of completed applications for employment, evidence of required training and orientation, reference checks, and evidence of requests for background investigations),
- 3. A "sample" client record,
- 4. The applicant's knowledge of their service description and policies and procedures, and
- 5. The applicant will also be able to demonstrate that he has hired, trained, and oriented enough staff to begin service operation, including relief staff. In addition, the applicant will be required to submit complete and final copies of the service description, policies and procedures for the Office of Licensing to maintain on file.

Once this has been completed and the applicant is deemed to be in compliance with all applicable regulations, the Office of Licensing makes a recommendation to the Commissioner of the DBHDS regarding the issuance of

a license.

DENIAL OF AN APPLICATION

The application may be denied by the Commissioner if an applicant:

- 1. Has failed to achieve compliance with applicable regulations within one year from the date the application has been received;
- 2. Violates any provision of applicable laws or regulations made pursuant to such laws;
- 3. Has a founded disposition of child abuse or neglect after the appeal process has been completed;
- 4. Has been convicted of a crime listed in Virginia Code §§ 37.2-416 and 63.2-1726;
- 5. Has made false statements on the application or misrepresentation of facts in the application process:
- 6. Has not demonstrated good character and reputation as determined through references, background investigations, driving records, and other application materials;
- 7. Has violated existing regulations; or
- 8. Has permitted, aided or abetted the commission of an illegal act in services delivered by the provider, or exhibits conduct or practices detrimental to the welfare of any individual receiving services

Should an application be denied, applicants may have to wait at least six months before they can re-apply (Virginia Code § 37.2-418.C), and an additional \$500.00 application fee will be required.

Providers may not begin service operation until they have received a license from the Commissioner. Only the Commissioner may issue a license.

DBHDS REGULATION OF CHILDREN'S RESIDENTIAL FACILITIES ANNUAL OPERATING STATEMENT & WORKING BUDGET

INTRODUCTION

The Annual Operating Statement and Working Budget provide financial information regarding actual and anticipated revenue and actual and anticipated expenses. Actual revenue and expenses reflect the revenue received and costs incurred for the most recent complete year of facility operations. Anticipated revenue and expenses reflect the expected revenue and expenses for the next year of operations and constitute the working budget for the facility. This form is of primary importance in providing selected information needed to determine financial responsibility as required by the Regulations. The instructions for completing the form which follow describe the information to be recorded for each item.

INSTRUCTIONS FOR COMPLETING THE FORM

ACTUAL AND ANTICIPATED REVENUE: This section should reflect the actual and anticipated annual income available to operate the facility. It should not reflect the actual and anticipated annual income of the applicant(s) unless this income was or will be used to operate the facility. Anticipated amounts should be as accurate as possible and supported by confirming documentation to the maximum extent feasible. Actual amounts should be supported by confirming documentation.

- 1. **Fees for Children in Residential Care**: The actual and anticipated revenue which was or will be received each year as fees or payments for care should be entered here. Anticipated values should be based on the rate per child to be charged by the facility and the number of children that will actually be in care during the next year of operation. This may be estimated to be less than the licensed capacity which is being requested on the application and, if so, should be used rather than licensed capacity in determining the anticipated revenue to be received.
- 2. **Fees for Other Clients/Services**: The actual anticipated revenue which was and will be received each year as fees or payments for care or services provided to children other than those in residential (24 hour) care.**ederal Funds**: The revenue which was and will be received each year from Federal agencies.
- 3. **State Funds:** The revenue which was and will be received each year from State agencies.
- 4. Local Funds: The revenue which was and will be received each year from localities.

DBHDS REGULATION OF CHILDREN'S RESIDENTIAL SERVICE INSTRUCTIONS FOR COMPLETING THE BALANCE SHEET FOR

PRIVATE SECTOR FACILITIES

INTRODUCTION:

The purpose of a balance sheet is to show the financial condition of a business on a specific date. A Balance sheet consists of a listing of the assets and liabilities of a business and the owner's equity. Assets are further classified as current assets and plant and equipment. Liabilities are further classified as current and long term liabilities. This form is important in providing information needed to determine financial responsibility as required by the Regulations.

INSTRUCTIONS FOR COMPLETING THE FORM

ASSETS

CURRENT ASSETS: For each category, enter the assets which quickly can be converted to cash and which are reserved to meet immediate expenses of operating the facility.

<u>Cash</u>: Include currency, cash in checking accounts, and cash in savings accounts. The amount shown must be available now to operate the facility.

<u>Monetary Investments</u>: Include Certificates of Deposit, Savings Bonds, Treasury Bills, and other investments which quickly can be converted to cash. They currently must be owned by the applicant and identified for immediate use in operating expenses of the facility.

<u>Negotiable Securities</u>: Include stocks, corporate bonds, etc., which are owned by the applicant and are identified for use, if necessary, in operating the facility.

Accounts Receivable: Include monies owed to the applicant which are due within one year and would be used, if necessary, when received to fund operation of the facility.

Notes Receivable: Include promissory notes held by the applicant which are due within one year of the date of application and whose proceeds would be used, if necessary, to fund operation of the facility.

Other Current Assets: Include any other assets which quickly could be converted to cash within the operating year and used, if necessary, to fund operation of the facility.

LIABILITIES

CURRENT LIABILITIES: For each category, enter all liabilities which must be paid within the next 12 months.

Accounts Payable: Include the sum of the total unpaid salaries and payment of <u>all</u> unpaid bills and financial obligations which fall due within the next 12 months <u>with the exception of mortgage payments and installment loans</u>. Examples include utility bills, unpaid salaries/wages to current employees, charge accounts, and credit cards.

Notes Payable: Include all payments which must be made within the next 12 months on existing contracts, mortgages and installment loans.

Other: Include any other existing obligations which are due during the next 12 months. Include payments of obligations which are in arrears such as income taxes, property taxes, insurance, interest payable, etc. Itemize each item separately.

LONG TERM LIABILITIES: For each category, enter the liabilities which are due more than one year from the date of the Balance sheet.

Mortgage(s) Payable: Include the total amount necessary to liquidate any mortgage(s) on the facility less the amount reflected as part of mortgage(s) payable as current liabilities.

Notes Payable: Include the total amount necessary to liquidate all outstanding contracts, installment loans or promissory notes less the amount reflected as part of the notes payable amount reported as a current liability.

Other: Include all other long term liabilities which are owed and were incurred to support facility operations. List each item separately.

SITING OF CHILDREN'S RESIDENTIAL FACILITIES

You will need to determine where to locate the facility before the application can be submitted. Here are some important issues to consider in determining the location of the facility:

SAFE ENVIRONMENT

- Are there hazards near the building or house you intend to use? For example, dangerous traffic
 patterns, high crime statistics, inappropriate influences (gang activity, drug activity, a sex offender living
 nearby, etc. to check the sex offender registry click on:
 http://sex-offender.vsp.virginia.gov/sor/index.htm.)
- Does the building meet the needs of the population you want to serve? For example, is the floor plan easily navigated by individuals with cognitive limitations (e.g. mental retardation, autism, etc.) and permanent or temporary physical challenges (e.g. pregnancy, ambulatory issues, etc.)

RESOURCE AVAILABILITY

- Recreation Areas
- Schools
- Behavior Health and Devlopmental Services
- Medical Facilities/Offices
- Transportation
- Emergency Services
- Job Opportunities
- Libraries

ADEQUATE PARKING FOR STAFF AND VISITORS

MAINTENANCE ISSUES

- Do you have the resources to keep the building in good repair?
- Can you keep the yard mowed and free of debris?
- Can you keep the driveway clear of snow and ice?

Residential Environment

The Standards require that a certificate of occupancy be attached to the initial application for licensure. The locality where you wish to locate your facility, not the Department, makes the decision whether or not to issue a certificate of occupancy. Each locality has its own procedures and rules for issuing the certificates. Research may be needed to determine what information is required in the locality where you want to locate. The locality should be made aware that your intent is to operate a children's residential facility.

Wherever you locate your facility, it is important to be a good neighbor. Good neighbor policies and procedures will need to be developed and staff will need to be trained on these policies and procedures.

Policy and Procedure (Sample #1)

Area: HEALTH AND SAFETY	•	No: 23	Page 1 of 2 pages
Title: Crisis Intervention	Issued: 9/10/16	Revised:	Revised:
		11/16/2016	

POLICY:

It will be the policy of Hunt and Peck, LLC that all direct care staff member are trained to intervene in crisis situations that require either the use of basic first aid/CPR or psychological crisis that may respond to verbal attempts to de-escalate. Staff are also expected to be able to identify a medical or psychiatric emergency and take immediate and appropriate measures, as outlined in policy, to address such emergencies.

PROCEDURES:

Within the first thirty days (30) of employment, attempts will be made to have all direct care staff of Hunt and Peck will be certified in first aid, CPR, behavior management techniques consistent with the Hunt and Peck, LLC behavior management and human rights plans.

No staff member will be assigned to work alone at any Hunt and Peck, LLC location without another staff member who is current in First Aid/CPR, behavior management training and medication administration certification.

Staff trained in first aid will first address all injuries or illnesses involving consumers. Direct care staff members will be not be required to determine if an injury or illness is "minor" or "major". All such illnesses or injuries shall be reported to the Program Nurse or Clinical Coordinator.

Staff will document in the consumer's Health Information Record all such injuries and illnesses, including the interventions staff applied. Staff members involved will complete incident reports.

The Program Nurse, and/or the Clinical Coordinator will determine if the consumer's primary care physician should be contacted for further medical guidance. If required, an appointment will be scheduled with the physician and the Program Nurse will transport the consumer to the appointment, requesting the physician to complete the Medical Appointment form (Form #7).

Staff members who sustain minor injuries on the job will be directed to their primary care physician if care beyond primary first aid id required. Incident reports must be completed for staff injuries.

If any injury or illness is determined to be "minor", but requiring urgent medical attention, staff may transport the consumer or staff member in vehicles owned by Hunt and Peck, LLC (for consumer injuries/illness) or private automobiles, for injuries or illness involving staff, to appropriate medical attention, (either primary case physician or local emergency room).

Area: HEALTH AND SAFETY	•	No: 23	Page 2 of 2 pages
Title: Crisis Intervention	Issued: 9/10/16	Revised:	Revised:
		11/16/2016	

Occasionally the behavior of consumers at Hunt and Peck, LLC may escalate into what may appear to be agitating, threatening or out of control actions. Staff members are expected to use the skill they have mastered in behavior management training to attempt to verbally de-escalate such consumers. Only in an absolute emergency, where the immediate safety of the consumer, other consumers or staff members is threatened, may Hunt and Peck staff physically intervene to physically restrain a consumer. Such physical restraint will follow the guidelines of Hunt and Peck, LLC behavior management and Human Rights Policies and Procedures and may only be used by staff trained in these procedures.

Many of the consumers at Hunt and Peck, LLC are also under a physician's care. Staf should check the Medication Administration Record (MAR) to determine if there is an existing physician order for a PRN medication for agitation. If such an order is present, the consumer should be offered this medication. As with any medication, the administration of the PRN medication must appropriately be documented on the MAR.

At all times staff are expected to protect all consumers. If attempts at de-escalation of an out of control consumer are ineffective, staff will attempt to get the consumer to separate from others around them. If possible, at least two staff members should accompany any out of control consumer.

If attempts at separation are unsuccessful, staff are to remove all other consumers for the area of threat.

This policy would not be accepted BECAUSE it:

- is not numbered according to the regulation,
- has not addressed all the elements of the regulation,
- does not define a Crisis or a Clinical Emergency,
- does not it give clear instructions for staff to follow in the event of a Crisis or a Clinical Emergency, etc.

Note: How well you develop your policies and procedures and train your staff to implement could determine the quality of services, health and safety, life or death of the clients you serve.

Policy

These universal precautions shall be provided, in writing, to all employees, interns, volunteers and resident upon association the Rion's Hope program.

Procedure

In the event that potentially infectious or bodily fluids are exposed, staff will be required to clean and disinfect the area to prevent harmful effects due to direct contact with these materials. The following actions must be adhered by all staff to ensure that they are properly cleaned.

For any exposure to potential for spills or splatters of or direct contact with blood, urine, feces, semen or any other bodily fluids; Rion's Hope staff, volunteers, or students interns must use the following procedures:

- 1. Retrieve the necessary supplies from the closet in the staff's off or the closet in the kitchen to cover themselves from direct contact with potentially infectious material. Such items include gloves, goggles, a protective gown, shoe covers and a mask.
- 1. After properly putting the needed items on for protection, retrieve the pre-prepared bleach and water solution and towels (10 cups of water to 1 cup of bleach) for use in cleaning the exposed area. These items can be found in the closet in staff's office.
- 2. Use a <u>RED trash bag</u> (red bags used only in such cases) to collect any exposed clothing, cleaning towels or other items, which may need to be discarded due to exposure.
- 3. After cleaning is completed, carefully view the area to ensure that all the harmful material has been removed.
- 4. Place any remaining towels or items including the protective gown, gloves, and facial masks into the red bag. Tie the red bag and place it inside of another red bag before placing it into the facility's dumpster.
- 5. All persons involved <u>must wash their hands thoroughly</u> before returning to any other activity.

The Rion's Hope program shall maintain a well-stocked first aid kit in the home at all times. This kit shall contain items that will be used to support any minor injuries and medical emergencies to

residents an staff who may experience an injury or require treatment. In addition to the items in the first aid kit, the Rion's Hope program will keep a regular stock of band-aids, rubbing alcohol and peroxide to ensure that such items in the first aid kit are not depleted. The first aid kit will be monitored regularly for items that may need to be replenished. The first aid kit must accompany staff when residents are taken any road trips; however, the console compartment of the vehicle will also house alcohol pads and band-aids on a regular basis.

ACCEPTABLE

This policy and procedure would be accepted because it:

- is numbered according to the regulation for easy review by staff,
- gives very CLEAR, CONCISE instructions,
- identifies who, what, how, where and why of the policy- for all employees, interns, volunteers and residents relative to the universal precautions that will be used should potentially infectious or bodily fluids are exposed.

SYSTEMIC DEFICIENCY EXAMPLE 1

Would this situation be considered a systemic deficiency?

An unannounced visit was held at Facility XYZ. During the visit, the licensing specialist found that the quarterly reports in the resident's records were missing since the last licensing visit held 6 months before. The regulator asked for 5 more resident records and again found no quarterly reports written in the last 6 months. The capacity for this group home is 8 residents.

SYSTEMIC DEFICIENCY EXAMPLE 2

Would this situation be considered a systemic deficiency?

At the same unannounced visit the licensing specialist found trash thrown everywhere on the grounds of the facility. There holes punched in the walls fo the living unit. Windows were broken in 2 bedroom. Mosquitoes and flies were buzzing around inside. The kitchen was diry and moldy food was found in the refrigerator. Prescription medication was sitting on the windowsill in the kitchen.

NOTE: Systemic deficiencies are violations that demonstrate defects in the overall operation of the service or one or more of its components. To correct or prevent systemic deficiencies, providers will need to develop a system that prevents the deficiencies from occurring again. See the sample corrective action plan below.
