

After a long wait, we're excited to announce that the new REVIVE! Kits are back in stock and ready for distribution!

## INSIDE THIS ISSUE

### PG. 2

Ordering/Shipping & Fulfillment

### PG. 3

What Are the Kits looking Like?!

### PG. 4

Thank you!

**“Act as if what you do makes a difference. It does.” – William James**

## WHAT TO KEEP IN MIND

With the return of these kits, we're anticipating high demand. To ensure everyone has access, we're limiting orders to 30 kits per request. With 800+ trainers across the Commonwealth, let's make sure we can support everyone's needs. A few key things to remember when placing orders:

**Avoid Stockpiling** – Kits are in high demand, so we're monitoring orders to ensure fair distribution.

**Pair with Naloxone When Possible** – If you're able to dispense naloxone, we encourage pairing it with each kit. Otherwise, please prioritize sharing brochures or resource information.

**NOT Goodie Bags** – These kits are useful additional tools. Please don't treat them as takeaway bags.

### Shipping and Fulfillment

*Processing Time: 2 weeks from the order request.*

**Shipping: Up to an additional week after processing.**

**Total Delivery Time: Plan for up to 4 weeks to receive your kits.**

### Weekly Trainings?

**If you have regular trainings, please include all training dates with your orders, and review if you have kits left over before your next order.**

## Recognize and Respond to an Opioid Overdose

Someone may have overdosed if they:

- have infrequent or stopped breathing
- are unresponsive to stimuli
- have slow or no heart rate and/or pulse
- have deep snoring or gurgling
- have pale or clammy skin. For lighter skinned people, the skin tone turns bluish purple; for darker skinned people, it turns grayish or ashen.

1

Check for responsiveness.

2

Call 911.

## WHAT'S NEW?

- **New Logo** – Fresh, updated look on all materials!
- **Instructional Cards** – Updated to be clearer and more accessible.
- **Completion Cards** – Recognizing your trainees' efforts with a refreshed design.

## WHAT'S STAYING THE SAME?

The kits still contain:

- **Two Face Shields**
- **Two Pairs of Gloves**

**Important:** PLEASE REMEMBER, THESE KITS DO NOT CONTAIN NALOXONE.

3

Administer naloxone.

Begin rescue breathing until help arrives. Give 1 breath every 5 seconds.

4

### Recovery Position

If the person begins breathing on their own, or if you have to leave them alone, put them in the recover position.

- Head tilted back slightly
- Hand supports head
- Knee stops body from rolling onto stomach

**“Never underestimate the power of dreams and the influence of the human spirit. We are all the same in this notion: The potential for greatness lives within each of us.”**

**– Wilma Rudolph**

## **CHEERS TO YOU! – YOU MAKE REVIVE! STRONG!**

We know many of you have created your own kits, and we thank you for your adaptability and dedication!

We know this has been a journey, and we deeply appreciate each of you for your patience and understanding throughout this process. Your willingness to adapt, help one another, and continue your vital work each day has been invaluable. Every training you hold, every conversation you lead, and every life you touch makes a profound difference, and we couldn't do it without your dedication and commitment.

Thank you for being part of REVIVE! and for your continued resilience. Let's keep working together to make a lasting impact, one kit and one conversation at a time.

Warmly,

*Tiana V.*
