Who Should Attend? Caregivers, direct support professionals, and service providers who support individuals with IDD who may be experiencing dementia.

Training Overview - Gain practical strategies and insights to support aging individuals with IDD who are at risk for or are experiencing dementia.

This full-day training will cover:

- Early signs of dementia in individuals with IDD.
- Communication and behavior changes.
- Health advocacy and care planning.
- Environmental and activities of daily living adaptations.
- Tools and resources for ongoing support.
